Planning for your child/young person's return to school

Dear Parent Carer,

If your child/young person is returning to school following an extended absence, surgery, Botox or any change in need, it is important to let the school and relevant therapies teams know in advance so that we can plan a safe return to school for your child/young person.

In order for us to safely support their return to school and where required their rehabilitation, please provide the following information including the hospital discharge summary letter. Please note that therapists will not be able to begin the assessment and rehabilitation process without receiving the appropriate paperwork.

Please complete the information below and return to Bec Gayden, Assistant Headteacher

(If at this time this letter is not applicable, can we ask that you retain it for future reference and return as and when required)

Name of Pupil:

.....

Planned date of surgery, Botox or medical intervention:

.....

Details of change in need, planned surgery, medical intervention and/or location of Botox:

.....

.....

Hospital, Consultant and/or GP name and contact details:

.....

.....

Expected return to school date:

.....

Please be aware that the planned date to return to school may need to change if we have not received the above information well in advance of their return, as this may delay assessment and planning. Please provide any additional information/hospital paperwork you receive to support us further to ensure a safe and timely return for your child/young person.

Yours sincerely

Chadsgrove School in partnership with the Paediatric Therapy Department (Herefordshire and Worcestershire Health and Care NHS Trust)

For future reference, this letter can be accessed and downloaded from the school website.
