

## CCN Team

### **Lead Specialist Teacher**

***Full time and Permanent***

Chadsgrove School Support Services are seeking to appoint an inspiring and highly motivated lead specialist teacher (CCN Team).

This is an excellent opportunity to lead a very forward thinking and innovative team, sharing a passion for continually raising standards and increasing opportunities for the pupils that we support in our mainstream partnership schools.

Over the last 7 years, the Service has grown not only in size, increasing both the service portfolio offer and staff team, but has also seen a consistent approximate annual 10% growth in the number of service level agreements being purchased by schools. As a team lead, you will be part of the Service Leadership Team (SLT) and will play a pivotal role in future service growth and development.

The successful individual will need to be able to communicate and work effectively with our partnership mainstream schools, lead and line manage a growing team of specialist teachers, ensure service delivery standards are maintained, quality assurance procedures are followed, and, in conjunction with the Head of Service, ensure national standards are embedded within practise.

Please see Job Description for further role specific details.

Applicants will need to be a qualified specialist teacher (QTS) and hold a post graduate qualification in Autism.

If you are interested in applying for this post, please forward a letter of application to Mr M Loveday, Head of Service.

Informal discussions about the role are welcomed; please contact Danielle Holtham, PA to Head of Service, for further information: [patoheadofservice@chadsgrove.worcs.sch.uk](mailto:patoheadofservice@chadsgrove.worcs.sch.uk)

**Closing Date: Friday 7<sup>th</sup> June at 12noon**
