

Sorting And Recycling

A fun way to teach children about recycling and the environment, as well as building their recognition and problem solving skills.

- 1) Print out the recycling bins and all the square cards on to paper or card stock and cut out the shapes.
- 2) You can also laminate the cards and bins for extra durability.

Activities:

Sorting

Child can sort the recycling card in to their corresponding bins.

Recycling game

Turn the cards facing down and place the bins in the middle, right side up. Each player takes turns to pick up a card and place it in to the correct bin. For each correct answer the player gets to keep the card. The player with the most cards wins.
